

Happy Summer! Posted down below is a very ROUGH schedule for August. After experiencing the last couple of days with our students in the Leadership Inquiry course on a 2-day retreat experience, it was apparent that we needed to do a number of things for these August Days:

- 1) Build in some time for Espacio and Reflection, focusing on the theme of Community of Servant Leaders
  
- 2) Allow our most senior leaders (or in some cases Junior) an opportunity to lead; guiding conversations on topics such as: *What is the role of the organization to the larger Sacred Heart Community? What are our individual/collective goals? What do we bring to this Community?*
  
- 3) Build/Foster a Community of Leaders...for dinner, we would like to do a Cultural Potluck. A "SignUp Genius" will be sent out to all students participating in the August Leadership Summit. I can take care of the drinks/plates/utensils. The idea is that we bring a part of ourselves to this community, what better way to do that than with food!
  
- 4) Some things to consider, we have built in more organizational time for you all to meet with your group of students. We understand that there needs to be time to actually sit and discuss/plan for the start of the school year and we hope this schedule allows itself for that.

**COMMENTS FOR AUGUST DAYS** (I'll start to show an example)

*Monte:* I am not to sure what the Nuts and Bolts can entail, or do we re-purpose this for another framing activity for the second day?

*Monika:* I like the timing and flow of these two days. Curious to think about what we most want to accomplish with the whole group in the initial Welcome from 3 - 4:30, and in nuts and bolts. We could also use this time in the whole group to try to hold them accountable (in a fun way) for negotiating challenges...I'm not sure if skits/scripts/scenarios could be read or acted out here? Where there are clear common missteps that are glaring that we could use as concrete teachable moments? Like...sending an email that is informal and ungrateful...etc., that ask them to go back to the fundamentals (self-reflection, healthy communities, student accountability, communication, and community stakeholders...?) It's a BIG group of students, huh?
